UNION CALLS ALL WORKERS JOIN STRIKE

(By the Associated Press)
Cleveland, March 25.—Leaders in the nation wide strike of union miners, set for April 1, turned attention today toward the winning of 200,000 non-union miners in order to have them walk out when the union men quit.

Support of the non-union men seems assured, it was said by officials of the United Mine Workers. Formal call to non-unionists to join the strike will be issued by the union early next week, probably on Monday.

(By the Associated Press)
Indianapolis, Ind., March 25.—Suspension of work in the coal industry throughout the unionized fields of the country will directly affect more than a half million workers in the coal fields of twenty states. Twenty thousand Canadian miners also belonging to the United Mine Workers of America, Nova Scotia forming one union district and the western provinces forming another district.

The great numerical strength of the United Mine Workers of America is in the soft coal industry, the central competitive field, comprising western Pennsylvania, Ohio, Indiana and Illinois having a combined membership of approximately 215,000. The anthracite industry, centered in three fields, in Pennsylvania, employs 155,000 men, of whom approximately one-half are in the union. In past strikes, however, the union has practically succeeded in bringing a complete walkout in the anthracite fields.

The approximate distribution of union miners by states, obtained from union sources here, is as follows: Pennsylvania, 154,825; Illinois, 98,000; Ohio, 49,000; West Virginia, 48,400; Indiana, 31,000; Kentucky, 14,900; Arkansas, Oklahoma and Texas, 14,800; Iowa, 13,000; Alabama, 12,200; Tennessee, 11,500; Kansas, 9,700; Missouri, 8,350; Wyoming, 7,650; Maryland, 5,250; Colorado, 4,675; Montana, 4,625; Washington, 4,620; Michigan, 2,125; Canada, 20,600.

SUBMIT COVENANT TO FRANCE, ITALY

(By the Associated Press)
Washington, March 25.—The four-power Pacific treaty, ratified yesterday by the senate, must still be adopted by the French chamber and Italian parliament before it is made effective for all of the signatories.

The treaty can be approved by order of the privy council, which can give the assent of the British government, without being referred to parliament.

NOT EVEN DONKEYS SPARED AT BELFAST

(By the Associated Press)
Belfast, March 25.—Gunmen were busy again today.

Three men were ambushed. John Beresford, a newspaper man and a Protestant, was twice wounded when attacked from ambush. The house of Cole Hawkins was fired and a pony and donkey in the stable killed.

HOPPER TO SEND AMENDMENT OUT

The Hartje amendment to the state constitution, providing for the taxation of personal property as well as real estate by improvement districts, will be mailed out to newspapers in each county today for official publication, Secretary of State Ira Hopper informed Attorneys George F. Hartje and R. W. Robins of this city in Little Rock yesterday afternoon.

Secretary Hopper said he had still not been served with a summons in the injunction suit brought by Little Rock attorneys to prevent him from certifying the amendment, and on the advice of Attorney General J. S. Utley he said he would send out the amendments for publication today. The constitution requires that proposed amendments be published for six months preceding the election in some newspaper in each county.

GENERAL RAIN SWELLS RIVER NEAR TO FLOOD

(By the Associated Press)
Memphis, March 25.—With rain threatened throughout the Ohio and central Mississippi valleys, government engineers today increased their safeguards against breakage of levees to the north of this city.

The river today registered 40 feet on the government gauge.

(By the Associated Press)
Vicksburg, Miss., March 25.—Government forces today were assigned to duty in the third Mississippi river district to protect levees against possible breaks during the present stage of high water.

Thirty boats and barges were stationed along the river between the mouths of the White and Arkansas rivers, while sand sacks, tools and other equipment for levee work were made available at a number of river cities and towns.

RESCUE CREW IN VAIN TASK AT TRINIDAD

(By the Associated Press)
Trinidad, Colo., March 25.—Nine men are known to have perished and nine others are missing today as results of the explosion late yesterday in the Sporis mine of the Colorado Fuel & Iron Company.

Eight of the bodies have been identified.

Rescue crews worked all night in an effort to save the imprisoned men.

NEAR TWO-THIRDS TAXES UNCOLLECTED

Taxpayers of Faulkner county are moving with customary slowness this year, and the grand rush before the final day has hardly set in yet, Sheriff W. M. Brady said today. With only about two weeks remaining until April 10, the final day for payment without penalty, only 2,375 receipts has been issued today, being only a little more than one-third of the total of about 7,000 to be made out.

Some of the taxpayers, the sheriff thinks, are hanging back on account of a recently published rumor that Governor McRae might again extend the time of paying taxes without penalty, as was done last year. No such order, however, has been issued by the governor and the latest reports from his office are to the effect that no proclamation of the kind will be issued this year.

In view of the fact that nearly two-thirds of the receipts are to be made out in the few remaining days, Sheriff Brady urges all taxpayers to bring their land numbers with them when they come to the courthouse, as much time is lost when the lands have to be looked up without a proper description.

Regarding the road taxes in the three highway districts, Mr. Brady said today that taxes, both road and general property, are being paid if anything a little better in these districts than in portions of the county not in a road district. No attempt is being made by anyone to pay property taxes without also paying the road taxes, he said.

ACCIDENTAL SHOT KILLS NEGRO BOY

Ollie Price, 15-year-old negro boy, son of Lewis Price, living six miles southeast of Conway, died at 4 o'clock yesterday afternoon as a result of being accidentally shot about four hours before. The boy, it is stated, was in a skiff on Adams lake with some other negroes. They had a loaded shotgun in the boat and in dragging it out the gun was discharged, the entire charge entering the Price boy's leg just below the thigh. By the time medical aid was secured the boy was so weakened from the loss of blood that it was decided not to attempt to amputate the leg, and he failed to respond to stimulants administered.

Building and Loan Insured Savings Plan

This is the most popular plan ever offered the public. Now available to Conway Savers for the first time.

HYDROPLANE FELL TO HORRIBLE FATE

(By the Associated Press)
Miami, Fla., March 25.—That a broken propeller forced the flying boat, Miss Miami, into the sea where it was kept afloat 48 hours before Robert Moore, the lone survivor, was picked up by the steamship William Greene, was the statement made by Moore to his rescuers before becoming delirious.

According to Moore's disconnected story, two of the women passengers died in his arms from exhaustion. Two other passengers leaped overboard to their death and the fifth passenger, a man, completely exhausted by Friday morning, slipped into the sea and was drowned. The flying boat had been helpless at sea since Wednesday morning.

Discovery of Moore by the steamer halted preparations for the greatest search in the air, on land and on the sea ever attempted on the Atlantic seaboard. Squadrons of aircraft were to search from above while speed boats, steamers and other craft were to ply the surface of the sea.

LONDON SUMMONS IRISH SPORTSMEN

(By the Associated Press)
Dublin, March 25.—Arthur Griffith, president of the Dail Eireann, and Eamon Duggan, minister of home affairs in the cabinet of the provisional Irish government, plan to go Monday to London in response to the British government request for a conference on the situation in Ireland.

KLAN TAKES SLAP AT ITS ACCUSERS

(By the Associated Press)
Lake Charles, La., March 25.—Lake Charles Klan No. 7 of the Ku Klux Klan has written a letter to judicial and peace officers in which it expressed resentment against the alleged "false statements recently made, implying that the Ke Klux stand for lawlessness."

Further, the Lake Charles Klan offers a reward of \$250 for the arrest of any group defying the laws of Louisiana and presuming to do so in the name of Klan No. 7.
